PROFILE

Enthusiastic and detail-oriented Bachelor Of Computer Application undergraduate passionate about Web development and Data Analysis. Strong collaboration skills. Confident in HTML,CSS, and JavaScript, eager to apply my knowledge to real-world challenges. Seeking an entry-level role as a Web Development Intern to contribute to a team, to learn and to grow as a professional.

PROJECTS

QUIZ APPLICATION [Nov 2024 - Dec 2024]

- Built an interactive Quiz Game App using Python.
- Designed a user-friendly interface with multiple-choice questions.
- Used OOP principles for modularity and efficiency.
- Handled user inputs and real-time scoring.
- Integrated text files/SQLite for score tracking.

Technologies used: Python

MOVIE REVIEW PLATFORM [Jan2025 -Mar2025]

- Developed a full-stack movie review platform for user reviews and ratings.
- Designed the front end with HTML, CSS, and JavaScript.
- Developed the back end with Python for authentication and data handling.
- Implemented a database MySQL (with XAMPP)to store movies, reviews, and ratings.
- Ensured responsive design and optimized performance for a smooth user experience.

Technologies used: Python, HTML, CSS, JS, MySQL

NETFLIX DATA ANALYSIS [Feb2025-Mar2025]

- Analyzed the Netflix dataset using Python, Pandas, Matplotlib, and Seaborn.
- Extracted insights on content trends and patterns.
- Identified key factors shaping Netflix's content strategy.
- Used data visualization for better trend analysis.

EDUCATION
